🎯 OBJECTIVE

Seeking a position as a Middle/Senior Full-Stack Developer in a product-oriented company or SaaS startup, where I can combine deep technical expertise with leadership and a focus on driving innovation.

👤 PROFILE

- 20+ years of experience in software development.
- Founder of a SaaS platform for website creation with advanced UI customization, real-time two-way UI ↔ Code synchronization, and AI-assisted generation.
- Proven leadership of development teams of up to 15 engineers.
- Proficient in Vue 3, Node.js, and Docker.
- Strong product mindset, UX focus, and ability to balance business goals with technology.

⬚ CORE SKILLS

Frontend	Vue.js 3 (Options API, Composition API), Vuex, JavaScript (ES6+), HTML5, Sass/SCSS, CSS3
Backend	Node.js, Express.js, REST API
DevOps & Tools	Docker, Git, Vite, Webpack, VS Code
Databases	Microsoft SQL Server (MSSQL), SQLite

Additional technologies & past experience:
PHP, C#, Delphi, Clipper, Zend Framework, MS Access

Soft skills:
Leadership, product thinking, UX orientation, team collaboration

⬚ PROFESSIONAL EXPERIENCE

🚀 Founder / Full-Stack Developer

Website Builder Platform (Alpha version, active development) | *Feb 2022 — Present*
- Designed and implemented from scratch a platform for creating websites with the ability to fine-tune elements, **two-way UI ↔ Code** synchronization, and support for AI generation.
- Implemented **live WYSIWYG editing** with **instant UI ↔ Code synchronization**.
- Enabled real-time collaboration between designers and developers.
- Built the frontend with Vue 3 and the backend with Node.js + Express.
- Deployed infrastructure with Docker and automated CI/CD processes.

🚀 Owner

Private Entrepreneur – Custom Business Software Development | *Jan 2009 — Feb 2022*
- Acted as a subcontractor for a corporate system tracking harmful emissions using **C#**, **Angular**, and **MSSQL**.
- **Led a team of 5–15 developers**, managing project delivery and technical direction.

🚀 Developer / Regional Office Director

Softline (Zhytomyr) | *May 2007 — Dec 2008*
- Developed and deployed enterprise software solutions for corporate clients.
- Managed regional office operations and local development initiatives.

🚀 Software Engineer

NVP "Krian" | *Jul 2006 — May 2007*
- Participated in the development of social support software for the Ministry of Labor of Kazakhstan.

🚀 Software Engineer

PrivatBank (Zhytomyr) | *Jul 2002 — Jul 2006*
- Responsible for maintaining and developing banking systems and internal tools.

🚀 Previous Roles (pre-2002):

- Employment Center — Lead Specialist, Head of IT Department
- Mukachevo Canning Plant — IT Specialist

🎓 EDUCATION

Zhytomyr Engineering and Technology Institute | *1994–2001*
Degree in "Automation and Control Systems", Systems Engineer

🌐 LANGUAGES

- **Ukrainian** Native
- **English** Intermediate (comfortable with technical documentation and written communication; basic speaking)
- **Russian** Understand and speak, but not used in active communication

📎 INTERESTS

- AI in UI/UX design
- Low-code / No-code platforms
